For more information on Student Financial Assistance Programs or to apply for financial aid via the web, visit [Federal Student Aid](#).

#### [Net Price](#)

Average Net Price, 2008-2009

Average net price is generated by subtracting the average amount of federal, state/local government, or institutional grant or scholarship aid from the total cost of attendance for the institution's largest program. Total cost of attendance is the sum of published tuition and required fees, books and supplies, and the weighted average for room and board and other expenses for the institution's largest program.

Full-time beginning undergraduate students who received grant or scholarship aid from federal, state or local governments, or the institution.

<b>Year</b>	<b>Average net price</b>
2008-2009	\$24,252
2007-2008	\$22,476
2006-2007	—

Full-time beginning undergraduate students who received Title IV aid by income

<b>Income</b>	<b>Average net price</b>
\$0 – \$30,000	\$23,340
\$30,001 – \$48,000	\$24,060
\$48,001 – \$75,000	\$25,608
\$75,001 – \$110,000	\$24,420
\$110,001 and more	—

Beginning students are those who are entering postsecondary education for the first time.

Title IV aid to students includes grant aid, work study aid, and loan aid. These include: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), Teacher Education Assistance for College and Higher Education (TEACH) Grant, Federal Work-Study, Federal Perkins Loan, Subsidized Direct or FFEL Stafford Loan, and Unsubsidized Direct or FFEL Stafford Loan. For those Title IV recipients, net price is reported by income category and includes students who received federal aid even if none of that aid was provided in the form of grants. While Title IV status defines the cohort of student for which the data are reported, the definition of net price remains the same – total cost of attendance minus grant aid.

### [Retention and Graduation Rates](#)

#### First-to-Second Year Retention Rates

Retention rates measure the percentage of first-time students who return to the institution to continue their studies the following fall.

**Full -time Students: 74%**

**Part-time Students: 100%**

Overall Graduation Rate and Transfer-Out Rate

The overall graduation rate is also known as the "Student Right to Know" or IPEDS graduation rate. It tracks the progress of students who began their studies as **full-time, first-time degree- or certificate-seeking students** to see if they complete a degree or other award such as a certificate within 150% of "normal time" for completing the program in which they are enrolled.

Some institutions also report a transfer-out rate, which is the percentage of the full-time, first-time students who transferred to another institution.

Note that not all students at the institution are tracked for these rates. Students who have already attended another postsecondary institution, or who began their studies on a part-time basis, are not tracked for this rate.

### **Overall Graduation and Transfer-Out Rates for Students Who Began Their Studies in 2006-07**

**Overall Graduation rate: 79%**

**(\* Transfer-out rate:**

### **Percentage of Full-time, First-Time Students Who Graduated or Transferred Out Within 150% of "Normal Time" to Completion for Their Program**

(\* Not all institutions report transfer-out rates.

### **Graduation Rates by Time to Completion**

Graduation rates can be measured over different lengths of time. "Normal time" is the typical amount of time it takes full-time students to complete their program. For example, the "normal" amount of time for many associate's degree programs is 2 years. Not all students complete within the normal time, so graduation rates are measured by other lengths of time as well, including "150% of normal time" (e.g., 3 years for a 2-year program) and "200% of normal time," or twice as long as the normal time (e.g., 4 years for a 2-year program).
